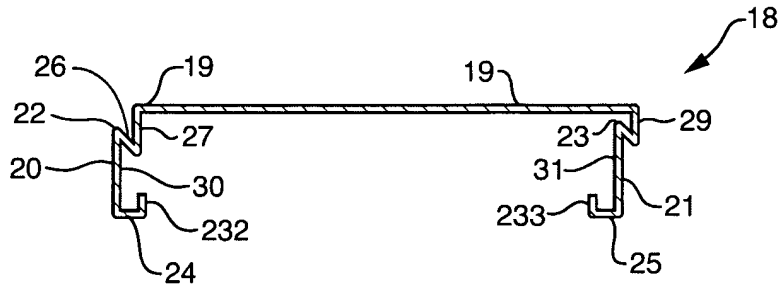

FIG. 5

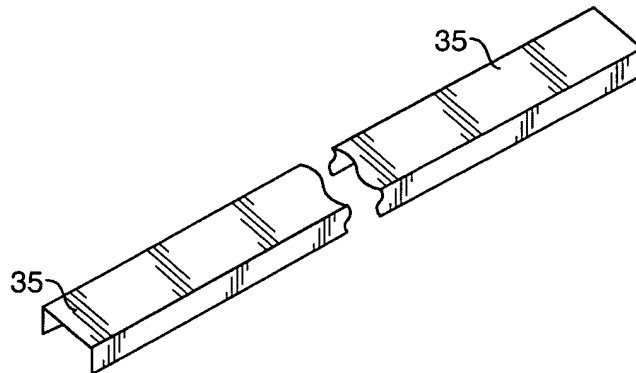

FIG. 6

A blank coordinate plane with a horizontal x-axis and a vertical y-axis intersecting at the origin. The axes are represented by solid black lines.

This diagram shows an exploded perspective view of a multi-layered structure, indicated by the bracketed label 42. The structure consists of several components: two top layers labeled 35, a middle layer 37, and a bottom layer 38. A central vertical component 43 is positioned between the middle and bottom layers. On the left and right sides, there are vertical components 18. A central vertical component 40 is shown in an exploded position. A bottom layer 41 is also shown. A central vertical component 44 is shown in an exploded position. A central vertical component 45 is shown in an exploded position. A central vertical component 46 is shown in an exploded position. A central vertical component 47 is shown in an exploded position. A central vertical component 48 is shown in an exploded position. A central vertical component 49 is shown in an exploded position. A central vertical component 50 is shown in an exploded position. A central vertical component 51 is shown in an exploded position. A central vertical component 52 is shown in an exploded position. A central vertical component 53 is shown in an exploded position. A central vertical component 54 is shown in an exploded position. A central vertical component 55 is shown in an exploded position. A central vertical component 56 is shown in an exploded position.
